rather insignificant volume of business. The break started with a fall in New American Telephone and Telegraph and Goodrich. There was nothing definite in the news of the day to which this further weakness could be attributed, but the continued uncertainty over the Mexican situation obviously keeps the stock market in a vulnerable position. Selling of New Haven had a special incentive 1331, 140 in a report, which was officially denied, 36 38 that the company had abandoned its prothat the company had abandoned its proposed financing. The foreign markets the series steady and quiet awaiting developments. The bank figures, as expected, were highly favorable, confirming the indications of the temporary nature of the factors which brought about the weakened position of the Clearing House institutions a week ago.

After fluctuating within a comparatively narrow trading area for a formight or more prices last week took a decided dip upon the development of increased activity. The selling, which first made its appearance in two stocks, Steel common and Amalgamated Copper, soon spread to the rest of the list. The pressure was not applied continuously, 119

but liquidation considering the bad news was only moderate. Perhaps the chief characteristic of the markets both here and abroad was an attitude of defence pending definite information regarding the exact status quo between this country and Mexico.

Mexico.

Mexican affairs were the all absorbing topic of discussion. The situation continued obscure, but from what could be learned of the trend of events there was 17314 17415 but liquidation considering the bad news

The steel market has continued unset-tled throughout the week and prices have declined from \$2 to \$3 per ton, but buyers refuse to come into the market. The cut in steel bars to \$1.30 per 100 pounds has stimulated no demand. Producers at the moment look for no large buying movement such as occurred on recessions two years ago. Producers recognize that this is distinctly a consumer's and not a producer's market. Lack of orders has already resulted in laying off many emoyees and further curtailment is ex-

"Pointing Downward."

To the chart readers this week's decline in the stock market possesses greater importance than is contained in the mere extent of the fall. In relation to high grade investments of count rates in Lombard Street stiffened. Home rails advanced, but there were further declines in Mexican issues. Mining shares were weak and Kaffirs were inclined to ease off.

Americans were quiet and without feature. Grank Trunk was unchanged and Canadian Pacific declined ¼ to 230%. The close was listless, with values ranging from a fraction above to a fraction below parity.

The particularly gratifying feature of Saturday's Clearing House return was the \$33. saided with entire equanimity has been the evidence of what the traders call \$51,000 decrease in the actual loan figures. The deficit reported by the banks for the previous week was wiped out, the actual surplus amounting to \$10,551,000, which compares with a surplus of \$4,60,600 for the corresponding period of 1912. The cash exhibit was somewhat below expectations, showing a gain of \$3,919,000, while an expansion of about \$8,000,000 had been predicted.

These costs include such items as wages, fuel and the like, and the lish-American Tobacco were items as wages, fuel and the like, and the money devoted to them is, so far as the railroad is concerned, directly consumed if expenses were to keep on rising this way Pennsylvania might go the way of New Haven, but no such thing is likely. Maintenance expenses were increased early in the year by the floods and this rise in transportation costs is presumably temporary. For the past nine months the available returns indicate that transportation costs will consume during the entire calendar year about 38.12 per cent. of gross earnings as compared with 38.82 in 1911, 38.84 in 1907, 39.76 in 1904 and 39 16 in 1903. In each of these previous years the Pennsylvania Railroad had either too much or too little business to handle it with the greatest economy.

The Week in Montreal.

Discussing the week in Montreal, Jenks, Gwynne & Co. say: "Trading in our market has been exceedingly tight and with one or two exceptions there was little or no change in prices. Dominion Steel Corporation shares were a weak feature. The feeling on these shares continues bearish. An unfavorable feature has been considerable selling for London account. There has been for London account. There has been some calling of loans. We look for dult, unsettled markets for the present."
